The Butchies

lydia lydia comes around
lesson number one lesson the sound
in breaking this sonic looming disc
a close encounter is the 1st risk
a psychic a physic a break down
e.s.p e.s.pecially pro and found
mistaking this floating space for right
and shaken gravity
did you get what you're asking for
hideous hideous people kill
destroying fields & rock & stars
you're dying and vying for the break
to be on top of us
did you get what you're asking for
