The Same Moon

Kris Herman

When the daylight comes and I look across the room
I see you're gone
As the morning breaks and I reach to hold your hand
I can see, I can see I'm the only one
Well, your clothes are gone and your bags are packed
But the bed's still warm where you lay
Now I need your love to come shining through
To carry me, come carry me away
Well, if you choose the time then I'll catch the moon
I'll see you there
From wherever I am, wherever you are
We'll find somewhere
I see the same stars in the same sky
Shining down on you
I'll be looking up from wherever I am
And it's you I'll see if you're looking too
There'll be days that'll seem much longer

And some nights will seem so cold
But I see her on the horizon
And it's gotta come soon, please, don't be too long
Don't be too long
If you choose the time, we can catch the moon
Oh, I'll see you there
Whenever it is, from wherever you are
Oh, we'll find, yes, we'll find somewhere, oh
Tell me, are you looking at the same moon?
Are you looking at the same moon?
Oh, yeah, are you looking at the same moon?
Please tell me, are you looking at the same moon?
Look up, look up, are you looking at the same moon?
Tell me, are you looking at the same moon?
Are you looking at the same moon?
Tell me, are you looking at the same moon?
