All the Little Lights

Passenger

One went out at a bus-stop in Edinburgh
One went out in an English park
One went out in a night club, when I was fifteen
Little lights in my heartOne went out when I lied to my mother
Said the cigarettes she found were not mine

One went out within me

Now I smoke like a chimney

It's getting dark in this heart of mine

It's getting dark in this heart of mineWe're born with millions

Of little lights shining in the dark

And they show us the way

One lights up, every time you feel love in your heart

One dies when it moves awayOne went out in the back streets of Manchester

One went out in an airport in Spain

One went out, have no doubt

When I grew up and moved out

Of the place where the boy used to playOne went out when uncle Ben got his tumor

We used to fish and I fish no more

Though we will not return

I know one still burns

On a fishing boat of the New Jersey Shore

On a fishing boat of the New Jersey ShoreWe're born with millions

Of little lights shining in the dark

And they show us the way

One lights up every time we feel love in our hearts

One dies when it moves awayWe're born with millions

Of little lights shining in our hearts

And they die along the way

Till we're old and we're cold

And we're lying in the dark

'Cause they'll all burn out one day

They'll all burn out one day

Oh oh, they'll all burn out one day

They'll all burn out one day

Yeah, no
