

# Just Between You And Me

## The Kinleys

I've got a feelin' deep inside  
I've got a feelin' I can't hide, it's true  
Just between me and you It started in my heart and hasn't stopped yet  
And I don't know how big it's gonna get, but it's true  
It's just between me and you Just between us, I've seen us  
Together in all my dreams  
And when we touch it's too much  
It's electricity  
Just between you and me Just you and me and a night like this  
You take my breath with one sweet kiss, maybe two  
Just between me and you You can call it magic, you can call it love  
Call it forever, say you're thinkin' of it too  
Just between me and you Just between us, I've seen us  
Together in all my dreams  
And when we touch it's too much  
It's electricity  
Just between you and me This is more than one woman and man  
This is greater than the sum of the two I've got a feelin' deep inside  
I've got a feelin' I can't hide, it's true  
Just between me and you Just between us, I've seen us  
Together in all my dreams  
And when we touch it's too much  
It's electricity  
Just between you and me
