

# Electricity

## Apogygma Berzerk

Our one source of energy  
The ultimate discovery  
Electric blue for me  
Never more to be freeElectricity  
Nuclear and HEP  
Common fuels from the sea  
Wasted electricityOur one source of energy  
Electricity  
All we need to live today  
A gift for man to throw awayThe chance to change has nearly gone  
The alternative is only one  
The final source of energy  
Solar electricityElectricity
