

# Consider Me

## Eddie Floyd

I know you're tryin' to be a big girl  
And keep the tears from your eyes  
And it's going to be a little hard  
To lift your head up high  
And you're gonna need a man  
A man who'll understand  
Whoa, darlin' darlin' darlin'  
Please consider me  
Well, I know that all your friends  
Have left you all alone  
And all the good times  
You had with them are gone  
So you need yourself a man  
Yeah, and I'll understand  
Well, darlin' darlin' darlin'  
Please consider me  
Baby, oh I've felt  
This way before  
Many many many many  
Times before  
So you've got to have a man  
Yeah, and you know I'll understand  
Whoa, darlin' darlin' darlin'  
Just consider me  
I don't want to be left on the outside  
Please consider me babe  
I don't want to be left all alone  
Please consider me, yeah  
I don't want to be left on the outside baby  
Please consider me, yeah
