

Season of Love

[Anna Graceman](#)

So dark, so cold, no hope in your eyes (eyes)
But I'm here, so hold on, I'll stay by your side
And I will go wherever you go
With me your never alone I believe I can fly, when we come together
Its a natural high when you bring me, back to life
I believe, we can live forever
I believe in the season of love
The season of love, the season of love (love)
Of love (love), of love (love), the season of love So long in my life
I've never known love (never known love)
But then you came and changed my ways
Change my life now nothings the same
I will go, wherever you go (wherever you go)
With me (with me), you're never alone I believe I can fly
When we come together (we come together)
Its a natural high
When, you bring me (bring me), back to life (ohhhh)
I believe, we can live forever
I believe in the season of love, the season of love
And still we found love, we come together
And I know that's its right (right), I feel it inside
