

# Better Than You (feat. Rita Ora)

Conor Maynard

I can do it better than, better than you  
Better than, better than you I can tell that you're watching me  
And I know you're loving everything that you see  
The way I gotcha going crazy  
I'll make you wanna dance with me  
And I been walking 'round like I just don't care  
Got everybody lookin' like I'm a true player  
So what's up? so what's up? I see you staring but I ain't mad at that  
I know you do you, and I do me right back I'm ready to go, oh  
Sure you wanna play this game  
I can do it better than, better than you  
I can do it better than, better than you  
So baby let's go, oh  
I know you won't forget about me  
I can do it better than, better than you  
I can do it better than, better than you So you get what you see with me  
Take a picture but you ain't getting 3D  
Boy slow it down, come here, I'ma make you sing for me  
So you say that you're better than me  
If I take it all off, bet you'll like what you see  
So what's up, oh what's up, yeah, yeah I see you staring but I ain't mad at that  
I know you do you, and I do me right back I'm ready to go, oh  
Sure you wanna play this game  
I can do it better than, better than you  
I can do it better than, better than you  
So baby let's go, oh  
I know you won't forget about me  
I can do it better than, better than you  
I can do it better than, better than you Ummm na uhm na eh, ummm na uhm na eh  
Ummm na uhm na eh, ummm na uhm na eh I can see you losing your mind yeah  
Cause we about to set this on fire  
I can see you losing your mind  
Cause we about to set this on fire  
I can see you losing your mind, oh I'm ready to go, oh  
Sure you wanna play this game  
I can do it better than, better than you  
I can do it better than, better than you  
So baby let's go, oh  
I know you won't forget about me

I can do it better than, better than you  
I can do it better than, better than you Better than, better than you  
Yeah, Rita!  
Conor!  
Better than, better than you  
Better than, better than you girl
