Dance Your Cares Away

Mis-teeq

Keep you bubblin' every day and every night
We don't wanna see you argue, fuss and fight
All we wanna do is dance and feel the vibe
Make you feel nice
DJ take back this track
Hit them again, the reaction is phat
Hit them again, are you feeling that?
Music is life, it's a natural fact
The people with the power, they make you feel poor
I wanna see the people on the dance floor
So here I come again with a lyric hardcore
I know I'm still raw but finding rhymes on deadline is law
Taste entertainment you know you want more
With the vibing galore upon the dance floor
The people go mad they make you explore
Different ways to reach an applause
This goes out for a worthy cause
Just move-a ya body, that's what it is for
Move-a ya body, the crowd's wanting more
You can't take us away from the music
Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it
Dance till the morning comes
It's the weekend, no time for sleeping
We got ya body rocking
Move to the track, best believing
Seeing is believing as I'm riding on this track
Mis-teeq got the city pon lock
Sit down pon the riddem 'cos we know how fi rock
Gridlock, roadblock, the show never stops
As we take it back just for you my friend
Rewind fi al the gyal dem
Sometimes just gotta escape
Stay dreaming when you wake
No matter come what may
Turn the music up and dance your cares away
You can't take us away from the music
Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it

Dance till the morning comes
Keep you bubblin' every day and every night
We don't wanna see you argue, fuss and fight
All we wanna do is dance and feel the vibe
Make you feel nice
Sometimes just gotta escape
Stay dreaming while you wake
No matter come what may
Turn the music up and dance your cares away
You can't take us away from the music
Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it
Dance till the morning comes
