

Dance Your Cares Away

Mis-teeq

Keep you bubblin' every day and every night
We don't wanna see you argue, fuss and fight
All we wanna do is dance and feel the vibe
 Make you feel nice
 DJ take back this track
 Hit them again, the reaction is phat
 Hit them again, are you feeling that?
 Music is life, it's a natural fact
The people with the power, they make you feel poor
 I wanna see the people on the dance floor
 So here I come again with a lyric hardcore
I know I'm still raw but finding rhymes on deadline is law
 Taste entertainment you know you want more
 With the vibing galore upon the dance floor
 The people go mad they make you explore
 Different ways to reach an applause
 This goes out for a worthy cause
 Just move-a ya body, that's what it is for
 Move-a ya body, the crowd's wanting more
 You can't take us away from the music
 Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it
 Dance till the morning comes
 It's the weekend, no time for sleeping
 We got ya body rocking
 Move to the track, best believing
Seeing is believing as I'm riding on this track
 Mis-teeq got the city pon lock
Sit down pon the riddem 'cos we know how fi rock
 Gridlock, roadblock, the show never stops
 As we take it back just for you my friend
 Rewind fi al the gyal dem
 Sometimes just gotta escape
 Stay dreaming when you wake
 No matter come what may
Turn the music up and dance your cares away
 You can't take us away from the music
 Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it

Dance till the morning comes
Keep you bubblin' every day and every night
We don't wanna see you argue, fuss and fight
All we wanna do is dance and feel the vibe
 Make you feel nice
 Sometimes just gotta escape
 Stay dreaming while you wake
 No matter come what may
Turn the music up and dance your cares away
 You can't take us away from the music
 Tantalizing you can't refuse it
Beats b-line, move ya body, don't you lose it
 Dance till the morning comes
