

# Get Back Up

## Barenaked Ladies

I'm a little bit worse for wear

Got a little bit more grey hair

I'm not gonna be the next big thing, but I'm getting fitted for a new brass ring

I been dunked, I've been kicked around

Now I'm ready for the big rebound

I know you can't win them all, but I'm swingin' like Pitt gettin' hits in MoneyballGet back, get back up

You gotta get back, get back up

You got a whole stadium on their feet, it's not about a victory or a defeat

See you gotta get back, get back up

You gotta get back, get back upNot everything is sink or swim

You cant fly if the airs too thin

The best part of the ride is the freefall

Better keep your arms and legs in the vehicle

Standing eight and I'm on the ropes

Knees givin' but I wont lose hope

Not the second coming of Muhammad Ali, but can I get a "WOOT" for the boxing imagery?Get back, get back

up

You gotta get back, get back up

You got a whole stadium on their feet, it's not about a victory or a defeat

See you gotta get back, get back up

You gotta get back, get back upGotta get back, gotta get back

Gotta get back, gotta get backGet back, get back up

You gotta get back, get back up

You got a whole stadium on their feet, it's not about a victory or a defeat

See you gotta get back, get back up

You gotta get back, get back up

Everybody's up on their feet, it's not about a victory or a defeat

See you gotta get back, get back up

You gotta get back, get back upGotta get back, gotta get back

Gotta get back, gotta get back
