Queen Of Your Dreams

Example

Whoa Whoa
Whoa Whoa oh x4
He had a name for her that only he used, yeah
She had a name for him but he refused to know
Now shes doin better without ya
Can see she's doin better without ya lately
Now the awful truths getting out there
And she'll let the whole world know
What remains of the day
When you dont have nothing to say
When you cant look her in face
And say you lost this one
You lost this one
The one that got away
Guess she was the one that drifted away
The queen of your dreams
For the rest of your life
You'll pretend your together
Living on a dream forever
The queen of your dreams

For the rest of your life
Whoa Whoa
Whoa Whoa oh x4
He had a name for her that only he used, yeah
She had a name for him but he refused to know
Now she's doin better without ya
Can see she's doin better without ya lately
So look yourself in the face
And say you lost this one
You lost this one
The one that got away
Guess she was the one that drifted away
The queen of dreams
For the rest of your life
You'll pretend your together
Living on a dream forever
The queen of your dreams
For the rest of your life

Whoa Whoa
Whoa Whoa oh x4
