

Melody Day

Caribou

Melody day what have I done
Now our hearts are locked up tight again
And when I pray it's all begun
And when you smile it melts away again

Melody day where have you gone
All the hope I had has gone away
And what we had has come undone
And when you smile it melts away again
Bijan!

Melody day what have I done
Now our hearts are locked up tight again
And when I pray it's all begun
And when you smile it melts away again

Tell them
Tell them I always knew why
So long
So long to say goodbye
Bijan!
