

# Hellbender Turbulence

Lordi

So she got up in the morning may this day be the day of confidence  
Consider it a fair warning gonna turn it on ten the turbulence  
Oh lord they tried to wear her down blinding is the sound  
Now tell me where have you seen her have you seen hellbender turbulence  
Now tell me where have you seen her have you seen hellbender turbulence  
Now who's wheelin' and dealin' may this day be the day of reckoning  
Unconventional meanings give the devil his due for dirty things  
Oh lord they tried to wear her down blinding is the sound  
Now tell me where have you seen her have you seen hellbender turbulence  
Now tell me where have you seen her have you seen hellbender turbulence
