

# World Boss (feat. Ben Harper)

## Gov't Mule

Rich man shaking in his shoes  
Poor man drowning in his blues  
Lovely ladies take their place in line  
People on the street yelling "it's time, it's time" World boss is coming  
World boss is coming Business man sold everything he owns  
Junkie's pretending he ain't never jonesed  
Politician sneaking through the crowd  
Super savior soldier cries out loud  
"everybody have you heard the news?" World boss is coming  
World boss is coming
