

# Streetwalker

## Delta Spirit

Streetwalker knows how to strut right  
She knows the truth  
Bad boys walking through the corridor  
God knows what they're gonna do Darkness paraded across the headlines  
Little girl stolen from her bedroom  
Homeless, beat to death or put out  
Hopeless, greedy and cruel Oh, why can't I feel for you?  
My heart is so black to you, oh Her head is spinning like a hurricane  
Tina was singing her name  
Old men like to rape her in the red light  
She's too young and numb to complain Little boy bought at the age of six  
Down the street he's wearing a dress  
Look at his face, you won't see no innocence  
He's got so much experience Oh, why can't I feel for you?  
They lie, what can I do? Oh love, set me free, set me free  
Come on and set me free  
Oh Lord, set them free, set them free  
Yeah, it could've been me Underground, the German Casanova  
Underground, the Panamanian Queen  
He whispered, "Down here the law will never find you  
Down here I am your God and King It's a sin to sit and just do nothing  
There's a special place in hell for me  
Oh God, I just gotta do something  
I swear to God this is happening Oh love, set me free, set me free  
Come on and set me free  
Oh Lord, set them free, set them free  
Yeah, it could've been me Oh Lord, set them free, set them free  
It could have been me
