The Mountain Song

Vertical Horizon

This mountain we must climb over
This mountain we must climb
I will follow you over
We will surviveIt's time now
We must be moving onward
It's time for us to fly
Take care and look over your shoulder
I'm there all the timeIf your lost and you need someone to count on
Oh you've got to look to me
Because it's times like these when a good friend is a savior
Oh you come running on back to meIt's time now
We must be moving onward
It's time for us to fly
Take care and look over your shoulder
I'm there all the timeAnd someday when you're feeling awkward
And someday when you're down
Come to me I will give you anything
I'll turn your frown aroundWhat you've done for me is more that I could hope for
Oh you are my friend
And I'll be there for you through happiness and sad times
Oh our love will pull us throughThis mountain we must climb over
This mountain we must climb
I will follow you over
We will survive
