

Talk About It

[Lindi Ortega](#)

Tell me why you keep talking all that trash
Well aren't you just the pot calling the kettle black
Goes around comes back around
Well nobody's gonna bring me downChorus
If you're gonna talk about it
I'm gonna hear about it
So you better just watch your mouth
If you're gonna talk about it
I'm gonna hear about it
Sooner or later I will find you outWhy you gotta keep telling all those lies?
Spreading shit and attracting flies
Just who the hell do yah think you are?
Your bite doesn't match your barkChorus
And If you're gonna talk about it
I'm gonna hear about it
So you better just shut your mouth
If you're gonna talk about it
I'm gonna hear about it
Sooner or later I will find you out
Sooner or later I will find you out
Sooner or later I will find you outChorus
If you're gonna talk about it
I'm gonna hear about it
So you better just watch your mouth
If you're gonna talk about it
I'm gonna hear about it
Sooner or later I will find you out
I said sooner or later I will find you out
Sooner or later I will find you out
