

Nobody to Love

Luther Vandross

Hey baby, what's your game?
I ask you the question and the answer's still the same
How can you go on day to day
Without someone to care
If I wanted to take that chance
If I wanted to be your man
You tell me that you feel lonely
But you won't love nobody
You tell me that you got a big heart
But you won't love no one
You lie and you moan and you bitch and you groan
But you won't let nobody in to love
What am I gonna do?
Hey there baby, you're not shy
We talk for hours and you seem just fine girl, but...
Every time I bring up love
You run for cover
Suppose I told you something that's true
Suppose I told you that I want you
You tell me all the guys want you
But you won't love nobody
You keep your heart in seclusion
And you won't love no one
You game and you flirt and you talk a lot of dirt
But you don't want nobody to love
What are you gonna do?
Heart feels empty, there's no one home
Nights are longer when you're alone
You tell me that you feel lonely
But you won't love nobody
You tell me that you got a big heart
But you won't love no one
You lie and you moan and you bitch and you groan
But you won't let nobody in to love
What am I gonna do?
You tell me all the guys want you
But you won't love nobody
You keep your heart in seclusion
And you won't love no one

You game and you flirt and you talk a lot of dirt
But you don't want nobody to love
What are you gonna do?
