Light It Up

MFAMOUS

Take these pills to help with your addiction
Open up to what the night will bring
Take this song and call it your prescription
Put your hands up let me hear you sing
(oh yeah)
We're giving good times to all kinds of people in out life
Ain't got times for bad vibes so leave it all behind
Light it up
The beat starts to bangin then we burn it up
And everything's all right
Turn it up got to keep it coming those good times for all kinds
Feel the cut
When you think it's over gonna flip it up
And everything's alright
Light it up got to keep it coming those good times for all kinds
Ain't no mind don't have to think about it
You can feel me breathing in your ear
If you feel good let me hear you shout it
I won't stop until i get you there
(oh no)
We're giving good times to all kinds of people in out life
Ain't got times for bad vibes so leave it all behind
(come on)
Light it up
The beat starts to bangin then we burn it up
And everything's all right
Turn it up got to keep it coming those good times for all kinds
Feel the cut
When you think it's over gonna flip it up
And everything's alright
Light it up got to keep it coming those good times for all kinds
You gotta get what you want but you forget what you need
Til you're a dog doing tricks hide'n up my sleeve
When i inject your body there'll be no mound of money
That can buy this kind of happiness, yes
Light it up
Light it up
The beat starts to bangin then we burn it up
And everything's all right

Turn it up got to keep it coming those good times for all kinds
Feel the cut
When you think it's over gonna flip it up
And everything's alright
Light it up got to keep it coming those good times for all kinds
Light it up
The beat starts to bangin then we burn it up
And everything's all right
Turn it up got to keep it coming those good times for all kinds
Feel the cut
When you think it's over gonna flip it up
Light it up got to keep it coming those good times for all kinds
Light it up
Good times for all kinds
