Me from Far Away

Adam Green

I made love behind her
I was scared to know her
Now the high is over
Because I need a shoulderLove is on it's way
Sometimes you're me from far away
Just waiting to get blow upI went to her island
And had a sad assignment
It was like a movie
That I was watching through meLove is on it's way
Sometimes you're me from far away
Just waiting to get blow upYou're a leaky world
You're bleeding girl
You're a pain in heaven
You are all your friendsLove is on it's way
Sometimes you're me from far away
Just waiting to get blow up
