

# World Domination Of Pain

## Destruction

It knocks at the door  
No one's been there before  
Questions and fear

The big change is near  
Can we read the signs about mankind's down fall?

Prophecy of truth millennium scares our youth

Will the forecasts prove what old legends did tell?

In the decade of pain, no one will remain  
Centuries ago

Some wish man did know  
About our spell

We'll all go to hell  
In the 7th month 1999

The king of terror will start his death machine

The 3rd anti-Christ will turn sun into darkness

His domain will be creeping success  
World domination of pain

(World domination of pain)

World domination of pain

(World domination of pain)Desperate eyes

Watch the burning skies  
Killing machines

Death bringing dreams  
Centuries ago

Some wish man did know  
About our spell

We'll all go to hell  
In the 7th month 1999

The king of terror will start his death machine

The 3rd anti-Christ will turn sun into darkness

His domain will be creeping success  
World domination of pain

(World domination of pain)

World domination of pain

(World domination of pain)One thousand years of wars

Who knows what's the fucking cause

A world domination of pain

The millennium of the insane  
World domination of pain

(World domination of pain)

World domination of pain

(World domination of pain)World domination of pain

(World domination of pain)

World domination of pain

(World)Domination

(Domination)

Domination

(Domination)  
Domination  
(Domination)  
Domination  
(Domination)  
Pain
