

Gaslighting Abbie

Steely Dan

One plush summer you come to me ripe and ready
And bad through and through
With that deep mystical soul synergy pumping steady
Between me and you
Lovin' all the beautiful work we've done cara mia
And it's barely July
If we keep on boppin' until Labor Day
Li'l miz Abbie, bye bye
What will it be some soothing herb tea?
That might be just the thing
Let's say we spike it with Deludin
Or else maybe tonight a hand of solitaire
Flame is the game
The game we call gaslighting Abbie
It's a luscious invention for three
One summer by the sea
With the long weekend that's comin' up fast, let's get busy
There's just too much to do
That black mini looks just like the one she's been missin'
Feels good on you
There's a few items we need in town, allez-vous girl
There's no time to waste
Such as fresh cable and fifteen watt bulbs
Couple dozen, it's a big old place

Let's keep it light, we'll do a Fright night
With blood and everything
Some punky laughter from the kitchen
And then a nice relaxing hand of solitaire
Flame is the game
The game we call gaslighting Abbie
It's a luscious invention for three
One summer by the sea
You can choose the music
I'll set up my gear
Later on we'll chill and watch the fireworks from here
How can you knock this mighty spite lock
Check out the work itself
A mix of elegance and function

That 's right, a tweak or two and then she's out of here

Flame is the game

The game we call gaslighting Abbie

It's a luscious invention for three

One summer by the sea

Flame is the game

The game we call gaslighting Abbie

It's a luscious invention for three

One summer by the sea
