

Chillin'

Sam & Ruby

Hot haze and lazy days cool drink of summer, ten toes barried in the sand,
sippin on coconuts with paper umbrellas, no place to be, no special plans
yeah that's the life, in my dreams, paradise, you and me, yeah yeah
I'm chasing the blue skies, I'm headin for love,
packin nothing but good times, coming along
watch your cares go up in smoke as we kick back
ya take it slow, there's nothing I'd rather do, then spend my life just chillin with you
City streets and concrete, jack hammer thumppin, car horn blowin on the breeze.
Traffic jams and tail lights, people racing and runnin, sky scrapers stretching past the trees
I close my eyes, sail away, you and I to a perfect day
I'm chasing the blue skies, I'm headin for love, packin nothing but good times coming along,
watch your cares go up in smoke as we kick back yeah take is slow
there's nothing that I'd rather do, then spend my life just chillin with you yeah yeahhhh
watch your cares go up and smoke as we kick back yeah take it slow
there's nothing I'd rather do, then spend my life just chillin
I'm ready willing, to spend my life just chillin with you. Yeahhh
yeahh
mmmmmm
