Butterflies

Hudson Taylor

Just a touch on the shoulder I'm passing out
Wish I could of told her I'm freaking out
For I have been poisoned by butterflies
I have been stared blankly by those eyesOoohhh ooohhh
What don't kill only makes us stronger, well I guess I'm stronger now
What don't kill only makes us stronger, well I guess I'm stronger nowJust a weep in the willow I'm terrified
My head on a pillow of pesticides
For I have been killing those butterflies
Is that what I'm willing to Sacrifice, to sacrifice, to sacrificeOoohhh ooohhh
What don't kill only makes us stronger, well I guess I'm stronger now
Ooohhh ooohhh
What don't kill only makes us stronger, well I guess I'm stronger now
What don't kill only makes us stronger, well I guess I'm strongerNowww
Roll with whatever flows or comes my way I always say
Roll with whatever flows or comes my way I always say
Roll with whatever flows or comes my way I always say
Roll with whatever flows or comes my way I always sayOoohhh ooohhh
What don't kill only makes us stronger, well I guess I'm stronger now
Ooohhh ooohhh
What don't kill only makes us stronger, well I guess I'm stronger now
What don't kill only makes us stronger, well I guess I'm stronger nowRoll with what ever flows or comes my way I always say
