# Tiny Sparkle

## Secret & Whisper

They will search for us all through the night
We will hide from them our sacred light
(Of green and gold)Protecting our tiny sparkle
(Of green and gold)
From hungry timber wolvesDon't make me nervous
The forest energy has deeper meaningThey're tearing you away from me
To remove a spell
You will need some helpProtecting our tiny sparkle
(From green and gold)
From timber wolvesDon't make me nervous
The forest energy has deeper meaning
Black smolder in our hearts
We're starting to change from light to darkRelease all sad memories
'Cause we know all the world is diamonds
Just take a look beneath
'Cause we know all the world is diamonds
Just take a look at me
