

# Fires

## Gutworm

Baby, darling, doll face, honey  
Now I don't mean to cause you worry  
It's only hands in my pocket  
And the queen on my money  
Did you know I've been wanting you?  
So leave your locks on the latches  
If you bring the water  
I'll bring the matches  
'Cause we are fires in the night  
We are fires in the night  
Let us bathe you in our heart  
'Cause we are fires in the night  
Come on get up Romeo  
Don't you know what the time is?  
It's the fall of rock 'n' roll  
That's what the news said  
Did you know I've been wanting you?  
So leave your locks on the latches  
If you bring the water, I'll bring the matches  
'Cause we are fires in the night  
We are fires in the night  
Let us bathe you in our heart  
'Cause we are fires in the night  
We are fires in the night  
We are fires in the night  
Let us bathe you in our life  
We are fires in the night
