

# Come On Kids

## Tegan and Sara

We were so high we  
Thought we'd definitely die  
'Cause we were dead already, dying  
Endless nights took on my whole life Or so I thought  
It turns out that all your friends  
They were just mean  
Dressed up So, come on kids eat those pills  
You got your whole life to lose  
Weve got so many friends  
That wear their feet too big for their shoes Weve got cities to visit  
Weve got trees weve yet to live in  
And so get yourself on top of me  
Before I'm gone, gone, gone We were so young  
I thought that acting old  
Would give me all your love  
Give me all youve got So come on kids eat those pills  
Youve got your whole life to lose  
And weve got so many friends  
That wear their feet too big for their shoes Weve got cities to visit  
Weve got trees weve yet to live in  
So get yourself on top of me  
Before I'm gone, gone, gone And all night long on your front lawn  
You'd build me a neon village  
And you said bring on new diseases  
If theyre good for you Then theyll be good for me  
Yeah, if its good for you  
Then its good for me  
If its good for you then its good for me So come on kids eat those pills  
Youve got your whole life to lose  
And weve got so many friends  
That wear their feet too big for their shoes Weve got cities to visit  
Weve got trees weve yet to live in  
And so get yourself on top of me  
Before I'm gone, gone, gone And weve got so many friends  
That wear their feet too big for their shoes  
Weve got so many friends  
That wear their feet too big for their shoes Weve got so many friends  
That wear their feet too big for their shoes  
Weve got so many friends

That wear their feet too big for their shoes
