The Harder We Fall

Ana Johnsson

Gone astray, it seems we lost our way
Come to learn the price we pay
Bought it all to fill the empty space
How did it get this far?Lost track what we're looking for
Got everything but we still want more
When we've been drifting too far
The harder we fallGoing blind, staring at the sun
We feel on top as we come undone
When we keep wanting it all
The harder we fallWide awake but still I'm feeling numb
I can't believe what we've become
For all that's real, I know we can't go on
How did it get this far?Lost track what we're looking for
Got everything but we still want more
When we've been drifting too far
The harder we fallGoing blind staring at the sun
We feel on top as we come undone
When we keep wanting it all
The harder we fallAnd through it all, the fact remains the same
We choose to fall 'cause we don't wanna change
The higher we climb, the harder we fall
Gone astray, it seems we lost our wayLost track what we're looking for
Got everything but we still want more
When we've been drifting too far
The harder we fallGoing blind staring at the sun
We feel on top as we come undone
When we keep wanting it all
The harder we fallThe harder we fall
