Fool Yourself (feat. Plan B & Rage)

Chase & Status

You can only fool yourself and you can only fool yourself
And you can only fool yourself for so long
You can only fool yourself and you can only fool yourself
And you can only fool yourself for so longYou can only fool yourself and you can only fool yourself
You can only fool yourself for so long
You can only fool yourself and you can only fool yourself
And you can only fool yourself for so longYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
Wake up in the morning next day your way goneYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
So long, so long, so long and we're goneAnd we're gone
Gone
And we're
And we're
And we're goneYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
Wake up in the morning next day and it's goneYou can only fool yourself and you can only fool yourself
And you can only fool yourself for so long
You can only fool yourself and you can only fool yourself
And you can only fool yourself for so longYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
Wake up in the morning next day and it's goneYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
So long, so long, so long and we're goneAnd we're gone
Gone
And we're
And we're
And we're goneYou can only fool yourself for so long
You can only fool yourself for so long
You can only fool yourself for so long
So long so long so long and were gone
