Le Deux

Hollywood Undead

I wanna tear it up
Before we tear it down
I wanna light it up
Before we burn it down
We gonna get fucked up
Drink til we all black out
So fucking start it up
cuz u know it's goin downDrink, got swag
Yeah we keep it the same
Mad dogged all up
In the back of the brain
Aint no balled up
Baby, got bills to pay
Yeah I'm getting fucked up
As I'm changing lanes
Oh my god
I'm one of a kind
Imma smash it up
Its about that time
I'll be back to the party
By the end of the night
Cuz my hoe got needs
And I needs mine
cuz Funny Man
Is just so damn sexual
Got ass on my mind
Its just so damn edible
Feast your eyes girl
I'm so delectable
Dick like Hulk
Yeah they call me incredible!You've got your dress pulled up
I see you all around
I know you aint no slut
But I know you're so downSmash it up, smash it up
That bitch is off the hook
Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long

Smash it up, smash it up
And once I smash I'm goneGirl you so hot
You could spark a match
Me and Funny wanna flip you
Like an acrobat
And you can go back home
In your Cadillac
Put my name in your phone
It's the man in black
You got a big ol' mouth
And an ass to match
You got my back
And you straddlin'
And Imma fan of that
We could go home
And open up a can of that
I'll put my prize in your box
Like cracker jacks
Oh wait that's
Just me getting shit faced
Got me pulling out my Bluetooth
And brief case
And replace
Everything I said wrong
But then it wouldn't be
A Hollywood Undead songYou've got your dress pulled up
I see you all around
I know you aint no slut
But I know you're so downSmash it up, smash it up
That bitch is off the hook
Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm goneI wanna tear it up
Before we tear it down
I wanna light it up
Before we burn it down
We gonna get fucked up
Drink til we all black out
So fuckin' start it upSmash it, crash it
What's only crackin
Its me and you girl
Now that's what's happenin

Let's take a little gin
From my stabbing cabinet
Grab the cam
It's lights, camera, action
Let me take care
Of that satisfaction
Grab a six pack
From back off the wagon
Pull a little laugh
On Michael Jackson
I'll smash it now
cuz I know she's downSmash it up, smash it up
That bitch is off the hook
Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm gone
Smash it up, smash it up
This bitch is off the hook
Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm gone
Smash it up, smash it up
Smash it up, smash it up
