I Wish You Love

Kyla

So here goes
You're leavin'
You'll be workin' far from home
And I'll be left here on my ownWe both know you have to go
But I wish there was a way
You could feel my love each day(But/cause though)
I've nothing else to give you
To remember me by
Just a song I made in my heart
So you'll know though we're apartI wish you love
la la la n-ya n-ya
I wish you love
la la la n-ya n-yaYou hold my heart with this song
So when you miss me
Just sing alongI'll yearn for you always
Though I know it won't be long
And you'll be back where you belong
Until that day if you should miss me
Play this song and hear me sing
My love is never far away(But/cause though)
I've nothing else to give you
To remember me by
Just a song I made in my heart
So you'll know though we're apartI wish you love
la la la n-ya n-ya
I wish you love
la la la n-ya n-yaI wish you love
la la la n-ya n-ya
I wish you love
la la la n-ya n-ya
I wish you loveI wish you love...
