Wasted

8 Graves

I wouldn't say I'm driven
I wouldn't say I'm brave
I work with what I'm given
And try to keep the faith(?)
I'm burning like my bridges
I'm crashing like a wave

And I'm drinking again,
With the tide coming in,
But that's the way it goes these days

Cause I've been out here in the cold,
?
For all the little games I've played

I've been tryna save my soul
Blaming rock and roll
For all of the mistakes I made

So now I'm gonna sit and wait
Forever and a day
For you to come and take my hand

To lead me away from this hell that i made
And if you ask me where I've been

I've been wasted
Sorry, but I'm wasted
I've been wasted
Waiting for you

I've been wasted
Sorry, but I'm wasted
I've been wasted
Waiting for you

I wouldn't say I'm careful
I wouldn't say I'm bright
I question what I'm here for

And try to find the light

I'm floating like a feather
And sinking like a stone

And I'm drinking again
With the tide coming in
And thinking that I'll drown alone

Cause I've been down here in my hole
Forever being told
Everything will be ok
I've been tryna sing my soul (song?)
Blaming rock and roll
For all of the mistakes I've made
So now im gonna sit and wait
Forever and a day
For you to come and take my hand
To lead me away
From this hell that i made

And if you ask me where Ive been
Ive been wasted
Sorry but im wasted
Ive been wasted
Waiting for you (x3)
