

Baby I Like It

Slightly Stoopid

(chorus)

Baby I like it

Baby I like it when you move that way

I like it

Baby I like it when you move that way Baby won't you tell me what it takes to be your man

Baby won't you tell me what it takes to understand

Now when your body's talkin' to me girl,

You know what's on my mind

I wonder if you're the kinda girl who thinks would blow my mind

and if you're not pleased don't you worry, I don't discriminate

I said I like those kinda girls who put food up on my plate

But then you tell me that you want it girl, you know I want it too

Well, Wrap your legs right around my neck until my face turns blue

Because I like it in the mornin' time, girl

I like it late at night

I said I like those kinda girls who's pussy's really tight

So please girl don't keep me waiting so long

Please girl now don't keep me awaiting alone (chorus) (G love)

I smell the pussy but no pussy can I get

'Cause you keep your pussy hot just like your name was Boba Fett

I'm like Han Solo gettin' a deep deep freeze

Nothin' I say can break the ice, not even pretty please

I keep it cool, respect you everyday of the week

But expect everyday of the week I wanna freak

Spread your legs a little wider I run up deep inside ya

She wrap me up and smoke me like my name was Easy Rider

rider rider rider rider (2x) (chorus) So did you have to run, did you have to run, did ya did ya did ya have to run,

did ya have to run away (2x) Baby won't you tell me what it takes to be a man

Baby won't you tell me what it takes to understand

Now when your body's talkin' to me girl, you know what's on my mind

I wonder if you're the kinda girl who thinks will blow my mind

So please girl now don't keep me waiting so long

Please girl now don't keep me waiting so long (chorus)
