

It All Belongs to You

Fever Fever

It All Belongs to You How did I wind up on the ocean floor
Where I'd give anything just for one more
Final breath, to tell you how I really feel
Is this it, or one more step to something real You found me like a treasure lost at sea
And you take my hand; as I cross into the deep
You are with me I open my eyes, floods of blue skies
Flow like rivers of ten-thousand year-old love songs
And it all belongs to you Consciousness
The sun rays fade behind the waves of blue And I found you just like a treasure lost at sea
And you take my hand; as I cross into the deep
You are with me I open my eyes, floods of blue skies
Flow like rivers of ten-thousand year-old love songs
And it all belongs to you I open my eyes, floods of blue skies
Flow like rivers of ten-thousand year-old love songs
And it all belongs to you Fever Fever Kingdom EP lyrics
