

Kiss It Goodbye

[Andy Davis](#)

Im a car that you would love to have but you wouldn't want to drive
Talk about how Im all fixed up but I stay covered from the light
And all I wanted Ive had it in my hands
But I missed my chance...Yeah, you can live in the city where it catches your eye
But you cant be sure it'll be a good ride
And you hate giving up after how hard you try
So you just make peace and kiss it goodbyeIm a concrete floor; sometimes I cant be rested on
Dont you give me your heart I cant even be trusted with my own
And all you wanted was a story you could tell
But I kept them to myselfYeah, you can live in the city where it catches your eye
but you cant be sure it'll be a good life
and you hate giving up after how hard you try
so you just make peace and kiss it goodbye
