And It's Beautiful

Crash Test Dummies

We turn out water into wine
It's something we do all the time
It doesn't cost a single dime
And it's beautiful, yes, it's beautiful
Our glasses, never just half full
The flowers vivid, colorful
And though we feel the push and pull
And it's beautiful, yes, it's beautiful
And through our hearts are in the right place

And out there is the whole human race
Each one has a mask and a face
And it's beautiful
Enough about the look in your eyes
Enough about the sun and the sky
It will always be just you and I
And it's beautiful, yes, it's beautiful
Oh, so beautiful, yes, it's beautiful
Oh, so beautiful, yes, it's beautiful
Beautiful
