Meet You On the Other Side

Cuff the Duke

I took the time to compare emotions with energy
And found that the secret was to always have a strategy
The mazes we build to trap our inconsistencies
And misguided loyalties can weigh us down and come with penalties
There's only one way out two left turns to the south
But what's the price I will pay
Am I lazy or just insane it's hard to tell 'cause nothing every feels the same
The trail I left behind is gone the secret's out my strategy failed to help
So find your way and I'll do the same
I try my best not to fear what's waiting around each bend
It's only uncertainty and most of which won't bother me
I just stumble down every path I take
There's not a minute to waste
Am I lazy or just insane it's hard to tell 'cause nothing every feels the same
The trail I left behind is gone the secret's out my strategy failed to help
So find your way and I'll do the same...I'll meet you on the other side
