Flight 601

Fenix TX

I think about the places I have been
And what I've seen
And all the lessons I've learned in betweenTwenty some odd years and nothings changed
And I'm still the same
Still learning from this never ending dreamThis life it teaches me of many things
Like disbelief
And trusting in dishonesty and loveIt keeps me dragging on and on
But something's wrong
And I just can't seem to figure out the schemeAnother time might make you crazy
That's all I've got is time
Another time might make you crazy
That's all I've got is timeSatisfaction's never guaranteed
And you agree
It's best to live inside our memoriesAnd if I make it to the other side
I'll be satisfied
And I'm never coming backAnother time might make you crazy
That's all I've got is time
Another time might make you crazy
But that's all I've got is timeThis time it teaches me of many things
Like disbeliefAnother time might make you crazy
And that's all I've got is time
Another time might make you crazy
And that's all I've got, timeAnother time might make you
Another time might make you
But that's all I've got is time
