

White Privilege Blues

Future of the Left

white privilege blues
my kingdom for a heartache
if summer is a test
then lets be consistent
white privilege keyrings
sold factotum
whatever that means
i meant the minimum, didn't I?
i meant the minimum, didn't I?
i meant the minimum - didn't I?white privilege blues
submitted by readers
they only write in now
cos paper is so cheap
white privilege star jumps
they're the kind you do
they're the kind you do
i meant the minimum, didn't I?
i meant the minimum, didn't I?
i meant the minimum - didn't I?take off your shirt we will burn you tomorrow
take off your shirt we will burn you tomorrow
take off your shirt we will burn you tomorrow
we'll burn you to death in the morning
clean up that mess it will stay on your record
clean up that mess it will stay on your record
clean up that mess it will stay on your record
and cling like a leech to your children
make up your mind in the time it takes science
make up your mind in the time it takes science
make up your mind in the time it takes science
to prove that your will is illusion
take off your shirt we will burn you tomorrow
take off your shirt we will burn you tomorrow
take off your shirt we will burn you tomorrow
we'll burn you to death in the morning
