

# Two Scars

## Springtime Carnivore

His hands are warm  
I can feel the desert burn  
I can feel the engine turning over and over, starts to ignite Who's gonna love you best?  
Who will meet you in the wild?  
Tell you a part from the rest, who let you be, let you be, let you be as you are You're fix into two scars So count  
your ticking clocks  
Remember you may stop before they stop  
And in this little time that you got  
You gotta figure out, to understand Who's gonna love you best?  
Who will meet you in the wild?  
Tell you a part from the rest, who let you be, let you be, let you be as you are Fix into two scars  
Fix into two scars Who's gonna love you best?  
Who will meet you in the wild?  
Tell you a part from the rest, who let you be, let you be, let you be as you are  
Fix into two scars  
As you are  
Fix into two scars  
As you are  
Fix into two scars  
As you are  
Fix into two scars  
As you are  
Fix into two scars  
As you are  
Fix into two scars  
As you are
