

# Feed the Caskets

## More Than a Thousand

Stay the fuck away from me I did never sleep again  
How the fuck I ended up like this  
Came from the dead  
Demon schemes crawling under my skin  
I did never sleep again I see that I can't escape this place  
How can I kill a lie  
That's why I refuse to love  
So close to loving the living  
Stay devolving you killing  
I refuse to die  
Stay the fuck away from me  
Stay the fuck away from me  
Wish for us to be together  
Now and for ever  
For better or for worst I thought I would leave this world without a scar  
I'm burning faster than a shooting star  
I've been thinking, I've been thinking of  
I guess I always knew just who we are  
I take our secrets to the grave  
I never knew it was already laid  
You bleach your part again  
I swear I leave this world without a scar Without a scar  
I did never sleep again  
How the fuck I ended up like this  
I'm searching and nobody helps  
I did never closed my eyes again  
I feel like something is pretentious  
You never listen  
But I refuse to die  
Want to fight for me  
What's left for dead  
Motherfucker I'm still alive  
You couldn't care any less  
I will never forget  
Until the day I die You can't decide me I thought I would leave this world without a scar  
I'm burning faster than a shooting star  
I've been thinking, I've been thinking of  
I guess I always knew just who we are  
I take our secrets to the grave

I never knew it was already laid  
You bleach your part again  
I swear I leave this world without a scar  
I swear I leave this world without a scar  
Stay the fuck away from me You can't decide me
