Please Me

Tomas Doncker

Five million guys have tried to reduce her
To another girl out in the street
All those pretty eyes, have lied to seduce her
But they come crawlin' back at her feet
Too many times, I've seen them abuse her
Just like the times I've been deceived
The touch of her starlight makes me happy
I can see her shinin' through in my dreams
And I wake up cryin'
Please me, please me, baby
Please me, please me out of my head
Please me, baby

Everybody's been a toy for someone
So take me if you want to play
Tease me even if it's only for fun
And let me play the game on another day
Please me, please me, baby
Please me, please me out of my head
Please me, baby
Please me, baby, please me, baby
Please me, baby, please me baby, please me baby, yeah
Please me, baby, please me baby, please
Please me, baby, please me, baby
Suck it
