

Start First (Album Version)

Skindred

Now what's done in the dark must come to light,
And some of them ah big up themself and ah grown with the badness,
Jah know that no right.
You don't know, you ah fe' come again and renew your sight Start first, start first, oh,
Say what? Start first, no no.
Start first, start first.
Say what? Start first. In this time of fighting and confusion
You and youth, them just caught in pollution.
Bear destruction it runs through the nations,
Building walls constructing segregation. Ooh time, time to cool yourself, just cool yourself.
We should live in love and health. Uno we start first, ah them start first,
Well one of you better give because the time is gettin' worse.
Uno we start first, ah them start first,
And can't you live together? It's like we all under a curse.
Uno we start first, ah them start first,
Well hell is getting hot and into flames it's gonna burst.
Uno we start first, ah them start first,
And for a little peace you know the righteous them ah thirst. Revelation you know that it's dawning,
Jerusalem, God's time piece in mourning.
Time to wake up and take off your make up,
Oh ye son's and ye daughter's of Jacob. Ooh time, time to cool yourself, just cool yourself,
We should live in love and health. Uno we start first, ah them start first,
Well one of you better give because the time is gettin' worse.
Uno we start first, ah them start first,
And can't we live together? It's like we all under a curse.
Uno we start first, ah them start first,
Well one of you better give because the time is gettin' worse.
Uno we start first, ah them start first,
And for a little peace you know the righteous them ah thirst. Calling out to all who hear me
Can't we live in peace?
Calling out to all who hear me
Can't we live in peace? In this time man ah shot and ah murder,
How much more can we take it much further? Start first, start first,
Well one of you better give because the time is gettin' worse.
We say, start first, start first,
Hell is getting hot and into flames it's gonna
Uno we start first, them start first,
For a little peace you know the righteous them ah
Uno we start first, ah them start first,

Hell is getting hot and into flames it's gonna burst.'Cause we say,
Start first, second, third, fourth, fifth, last
