

I've Been Thinking

Handsome Boy Modeling School

Be my boy, be my boy
Be my boy, be my boy Be my boy, be my boy
Be my boy, be my boy I've been thinking about those things you said
I've been thinking about those things we did
I've been thinking about those things you do
I've been thinking about those things you made me do too I've been thinking about those things you said
I've been thinking about those things we did
I've been thinking about those things you do
I've been thinking about those things you made me do too I was hypnotized
By your fairy eyes
Like a tiger in the dark
You were hungry from the start Be my boy, be my boy
Be my boy, be my boy Diamonds, candy pills
One million dollar bills
You can try
But you can't buy me, buy me Diamonds, candy pills
One million dollar bills
You can try
But you can't buy me You can slide slide
Slippity slide
Hip hop
And don't stop
I'll never be
On my knees You can slide slide
Slippity slide
You can hip hop
And don't stop
'Cause I'll never be
On my knees When I saw you on the street
I just had to look away
You were so sweet
Sexy Steve
Lay back relax
Street boy please
Wait a second it's gonna take awhile Slide slide
Slippity slide
You can hip hop
And don't stop
I'll never be

On my knees You can slide slide
Slippity slide
You can hip hop
And don't stop
I'll never be
On my knees I've been thinking 'bout
Why you act so proud
I've been thinking 'bout
What's this shit about
Am I losin' control
Am I losin' my soul
Just tell me am I losin' you Be my boy, be my boy
Be my boy, be my boy Be my boy, be my boy
Be my boy, be my boy Diamonds, candy pills
One million dollar bills
You can try
But you can't buy me You can slide slide
Slippity slide
You can hip hop
And don't stop
'Cause I'll never be
On my knees You can slide slide
Slippity slide
You can hip hop
And don't stop
'Cause I'll never be
On my knees I've been thinking 'bout
I've been thinking about
I've been thinking 'bout
I've been thinking about
Losing you
