

I've Been Thinking

Handsome Boy Modeling School

Be my boy, be my boy
Be my boy, be my boyBe my boy, be my boy
Be my boy, be my boyI've been thinking about those things you said
I've been thinking about those things we did
I've been thinking about those things you do
I've been thinking about those things you made me do tooI've been thinking about those things you said
I've been thinking about those things we did
I've been thinking about those things you do
I've been thinking about those things you made me do tooI was hypnotized
By your fairy eyes
Like a tiger in the dark
You were hungry from the startBe my boy, be my boy
Be my boy, be my boyDiamonds, candy pills
One million dollar bills
You can try
But you can't buy me, buy meDiamonds, candy pills
One million dollar bills
You can try
But you can't buy meYou can slide slide
Slippity slide
Hip hop
And don't stop
I'll never be
On my kneesYou can slide slide
Slippity slide
You can hip hop
And don't stop
'Cause I'll never be
On my kneesWhen I saw you on the street
I just had to look away
You were so sweet
Sexy Steve
Lay back relax
Street boy please
Wait a second it's gonna take awhileSlide slide
Slippity slide
You can hip hop
And don't stop
I'll never be

On my kneesYou can slide slide

Slippity slide

You can hip hop

And don't stop

I'll never be

On my kneesI've been thinking 'bout

Why you act so proud

I've been thinking 'bout

What's this shit about

Am I losin' control

Am I losin' my soul

Just tell me am I losin' youBe my boy, be my boy

Be my boy, be my boyBe my boy, be my boy

Be my boy, be my boyDiamonds, candy pills

One million dollar bills

You can try

But you can't buy meYou can slide slide

Slippity slide

You can hip hop

And don't stop

'Cause I'll never be

On my kneesYou can slide slide

Slippity slide

You can hip hop

And don't stop

'Cause I'll never be

On my kneesI've been thinking 'bout

I've been thinking about

I've been thinking 'bout

I've been thinking about

Losing you
