

One Man Revolution

The Nightwatchman

On the streets of New York the cabs don't stop
On the street where I live they called the cops
Found a noose in my garage, now how 'bout that
So tonight I'm in the bushes with a baseball bat 'Cause I'm a one man, I'm a one man
I'm a one man revolution
I'm a one man, I'm a one man
I'm a one man revolution The time is nigh, the day is dark
There's only one solution
I'm a one man, I'm a one man
I'm a one man revolution On the streets of Havana I got hugged and kissed
At the Playboy Mansion I wasn't on the list
On the streets of Cape Town shit's ready to blow
I don't know how to get there but I'm ready to go I'm a one man, I'm a one man
I'm a one man revolution
I'm a one man, I'm a one man
I'm a one man revolution The time is nigh, the day is dark
There's only one solution
'Cause I'm a one man, I'm a one man
I'm a one man revolution Sacrifice and neon lights, slave ships don't wait
Love many, trust few and don't be late In my nightmares the streets are aflame
And in my dreams it's much the same
And on the streets of LA they know my name
And if you've come this far, mister, maybe we're one and the same I'm a one man, I'm a one man
I'm a one man revolution
I'm a one man, I'm a one man
I'm a one man revolution The time is nigh, the day is dark
There's only one solution
'Cause I'm a one man, I'm a one man
I'm a one man revolution
