One Day

Eva Under Fire

Cold cold shoulder you were
All the rage
The room lit up lit up
Whenever you would hit the stage
Free fall free fall oh
We were waiting for a change
We go where we want to there aint
No better way

Chorus
I remember one day
I'd say swear I'll make it there some day
Oh I know by now
Whoa this is who we are
Tell them all to raise the bar
Oh I know by now
We'll never settle down

Vs2
Desperate wanderer you
Hide your face
Behind behind
Sunglasses and sweet champagne
Wake up wake up hearts
Longing for a change
Now is our time this is our ride
On board the train

(Chorus)

Bridge
Til the sun comes back around
Never settle down never settle down we're singing

(Chorus)
