Moonlight Lady

Mahogany Rush

Who's gonna tell you goodnight?
Who's gonna put out the light?
I love you and love is almost crazy
Slippin' through the so and so's
Over all the fields we go
Moonlight lady
Don't wanna tell you so long
Don't wanna mess up your song
Feelin' like I do I'm almost crazy
Choosin' all the red blue jeans
Watchin' people be so mean
Moonlight lady

I'm on fire and I can hardly breathe
Time goes by
And all alone my poor heart grieves
I love you just 'cause I do
I didn't plan it with you
But now we're here we might as well accept it
We're together for all time
Marching through the fields of dimes
Moonlight lady
Moonlight lady
Moonlight lady
Moonlight lady
