

This Story so Far

Last Day Of Summer

Now I need to be complete,
take your time nobody
acts so perfectly
we are naked on the floor
I've never meant to be alone,
you and me nothing more I don't want to cry
I can't stand your goodbyes
no more,
you don't want to save me
you're the center of my
life disease Forgive me
you didn't understand again
I guess that you don't know
what is right or wrong
please, leave me alone I don't want to cry
I can't stand your goodbyes
no more,
you don't want to save me
you're the center of my
life disease
